NEW ZEALAND IN A BOWL

## DOG FOOD CANNED VS ROLLS TWO GREAT OPTIONS

While canned food may be a slightly more convenient way to feed your pet high quality nutrition, our dog rolls use the same premium ingredients but are processed at a lower temperature making dog rolls a great option nutritionally.

**Either way your pet will love their Kiwi Kitchens dinner!**

- **Ingredients** - we use the same premium ingredients in our dog rolls as we do in our canned food, with both being 93% meat or fish
- **Processing** - our dog rolls are gently pasteurised at 161°F for only 15 minutes to protect and lock in nutrients
- **Moisture & metabolizable energy** - with less moisture in the dog roll, your pet will get the same goodness as they do from canned food, with the benefit of feeding your dog a little less

**NATURALLY GOOD,
